

1. Create a Customer

First, we need to create a new customer object in SKM. Optionally, you can already now assign new licenses to it.

Edit Customer

Basic Information

Name: bob
Email: bob@example.com
Company: Example, Inc.

License Overview (1 in total)

Customer Id: 1074
Customers Licenses: ITVBC-00XUJ-GSMTK-NUBT

Customer Association

Enable Customer Association:

Customer Link: https://serialkeymanager.com/Portal/Apps
Maximum number of devices: 0

Save Changes Delete Go Back

You

2. Inviting your Client

Now we can invite your customer to link their account with your customer object so that you can add licenses to them later on.

Association

Test Company would like to be able to add more licenses (related to their products) to your account! This will give you unique access to their applications more easily. Here's what has to be done:

1. Create an SKM account

If you don't yet have an SKM account:

Create a new account (recommended)
Login using an external provider (beta)

2. Login and gain access to licenses

If you already have an SKM account, simply login and visit this page again!

Your customer

3. Customer Portal

Once their account is linked to the customer object, they will be able to manage their licenses (eg .see when they expire, etc)

Your customer

1. Start the App

Before the customer has logged in, all the features will be deactivated. Once they click on the log in button (lock sign), a browser window will open.

Please select an option below:

- Record a voice with an amazing quality and later convert it to a wide range of formats for different devices.
- Record a video directly from your screen and an internal camera simultaneously with a great performance.
- Convert, merge existing audio and video files into a wide range of formats, including, WMV MP3, MP4, and more.

Your customer

2. Authorize

In the browser window, they just need to click on the authorize button.

Authorize App

Do you want to authorize this app?

App name: Test Application
Expires: 2017-09-27 (in 5 day(s))
Permission: * Get License Keys.
